

Ten Key Mastery Week 4 Tips
Lessons 13 through 17 and Optional Lesson (Timing) 1

[Ten Key Mastery Website](#)

Do each lesson AT LEAST three times. If you find any of the reaches in these lessons difficult, do them five times instead of three times.

- [Lesson 13](#) is a 1-minute timing with the 123, 741, 852, 963 and 0 keys. Be patient with yourself when practicing all these key reaches.
- [Lesson 14](#) is a 1-minute timing with just the 456 keys. You'll probably find these reaches quite easy!
- [Lesson 15](#) is a 1-minute timing working with the 456 and 0 keys. Try not to look at the keys when doing the timing.
- [Lesson 16](#) is another 1-minute timing. Take a break before doing this lesson if you haven't had one in a while. You'll practice with the 123 456, 741, 852, 963, and 0 keys. With all these different reaches, this lesson will be more challenging than the last two.
- [Lesson 17](#) is another fairly easy 1-minute timing. You'll practice with the 789 keys in this lesson.
- [Optional Lesson \(Timing 1\)](#) is a 2-minute timing with all the vertical keystrokes. The timing is on Page C-2 in your textbook. For those using the screen-based version, you'll need to click the down arrow on the Lessons icon and change it from Standard to Optional to access the Optional Lessons.
